

1 Msaada wa kuelea kwa pete ya chupa - Maelekezo ya Utengenezaji Lifeboats

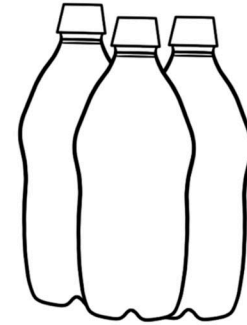

Pete ya chupa hutumika kumuokoa mtu kutokana na kuzama

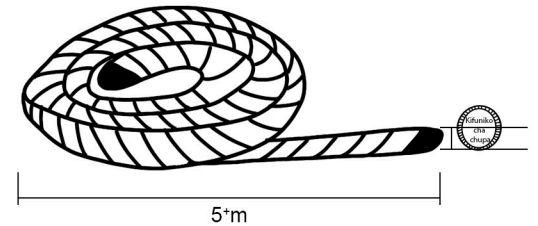

Zana, rasilimali na vifaa

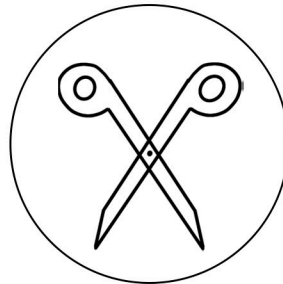

Nyepesi, kitambaa kigumu cha nylon kinachong'aa 500 denier au ripstop nylon 600m x 450mm
Kamba ya Polypropylene

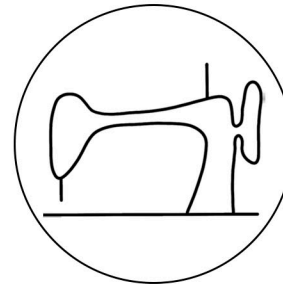

Mahitaji ya chupa
Chupa 3 za plastiki za lita 2 / lita 1.5.
Ni lazima chupa iwe nene na plastiki ngumu.

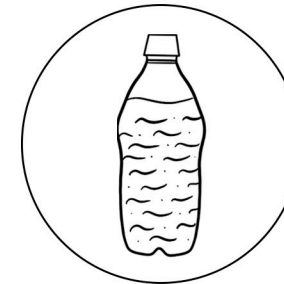

Kamba ya Polypropylene (Kamba ngumu inayoelea)
7mm kipenyo x 20m,
3-10kN nguvu ya kuvunja
au 9.5mm kipenyo x 18m,
3-10kN nguvu ya kuvunja

Mkasi

Mashine ya kushonea

Maji

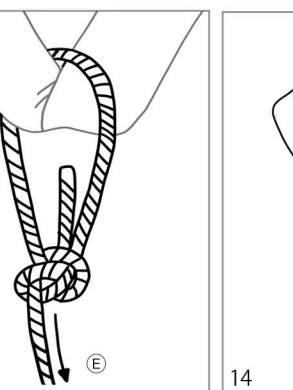

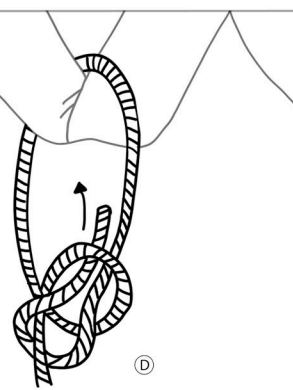

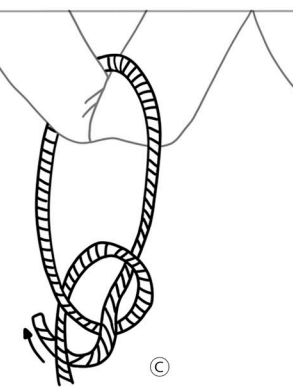

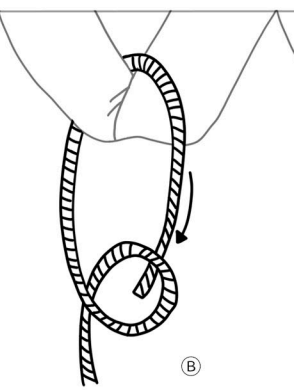

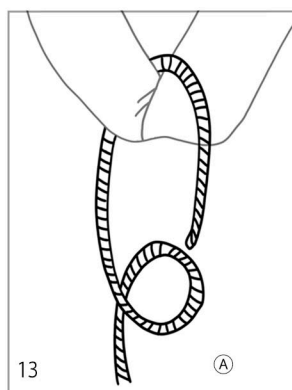

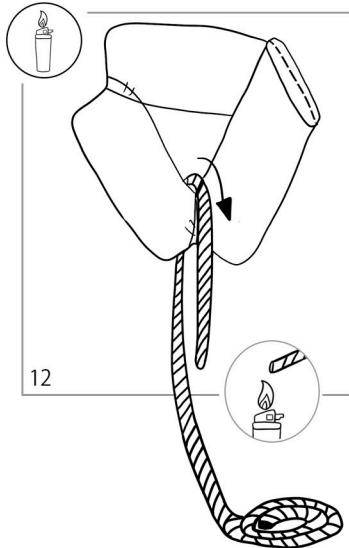

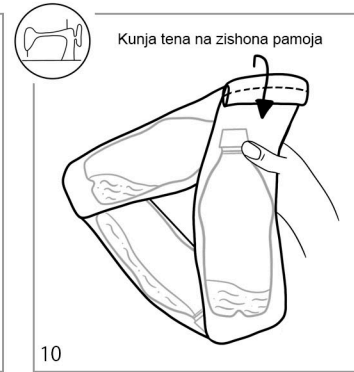

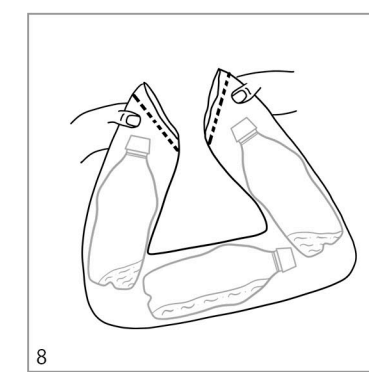

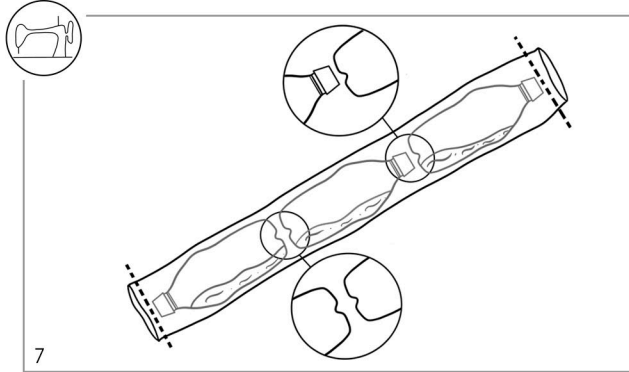

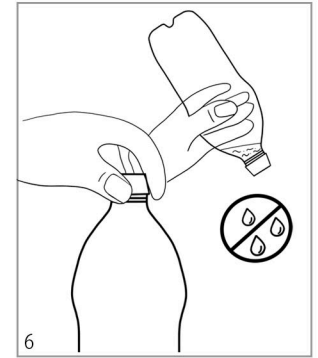

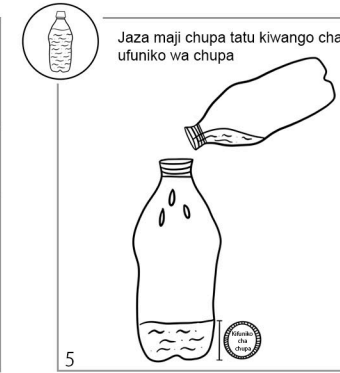

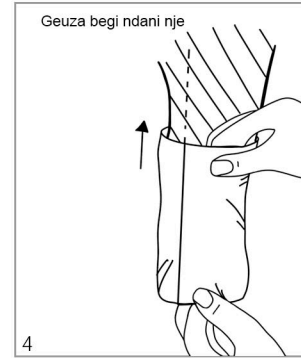

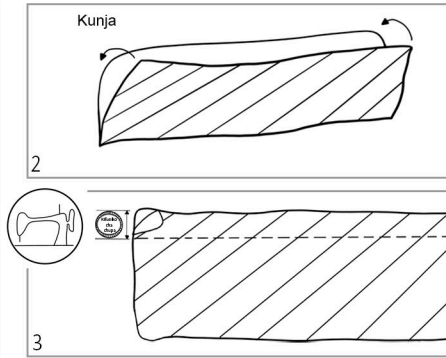

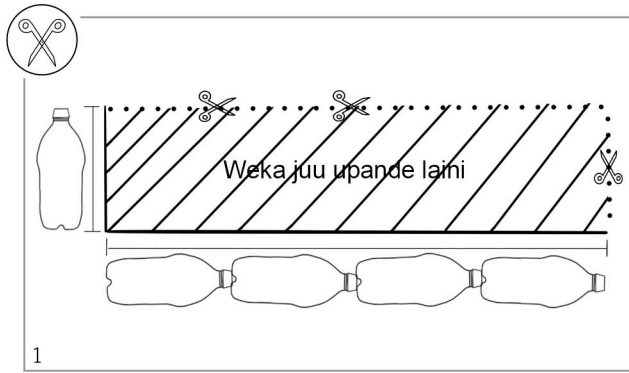

Kiberiti

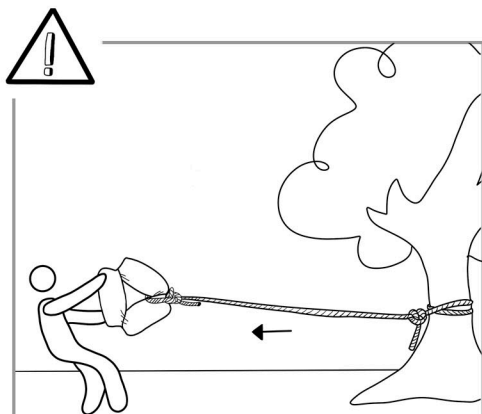

Hukumu

Maudhui ya mwongozo huu ni kwa uongozi wa jumla tu. Inawakilisha mazoezi bora kama tarehe ya kuchapishwa na haipaswi kuchukuliwa kama ushauri wa kisheria. Wale wanaotumia mwongozo huu wanapaswa kutafuta ushauri wa kitaaluma kama na wakati wa lazima. RNLI haikubali uwajibikaji kwa makosa yeyote katika hati hii. [Kwa kiwango cha juu kinaruhusiwa na sheria, RNLI haikubali wajibu na haitoi dhamana yoyote kuhusu matumizi au utengenezaji wa pete ya chupa. Matumizi ya pete ya chupa na mtumiaji ni jukumu la mtumiaji.

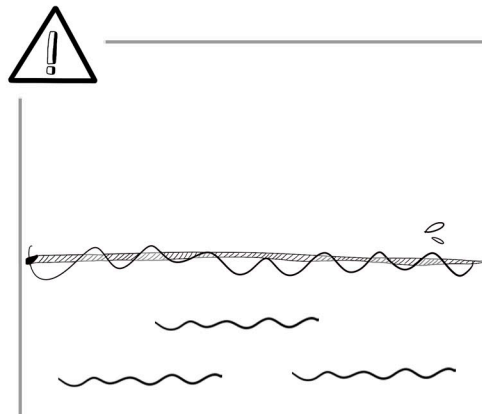

2 Msaada wa kuelea kwa pete ya chupa - Maelekezo ya Utengenezaji Lifeboats

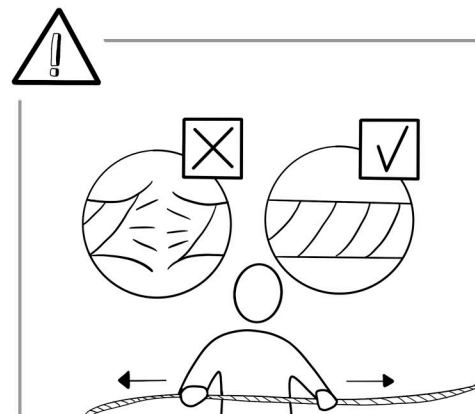

3 Uimara wa pete ya chupa

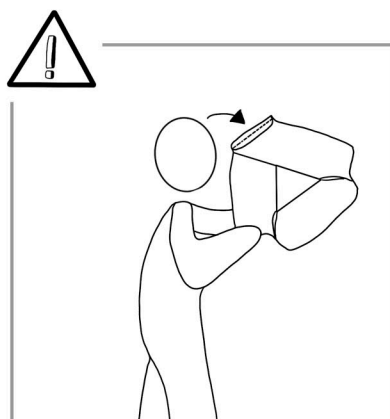

Pete ya chupa inatakiwa kujaribiwa kwa kuvutwa na mtu MMOJA wakati mwisho wake umefungwa kwenye kitu kisichosogea (k.m mti).

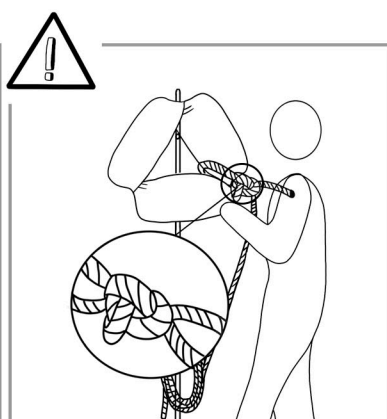

Ni lazima kamba iwe imetengenezwa kutumia kifaa kinachoelea kwenye maji. Polypropylene hutumika mara nyingi.

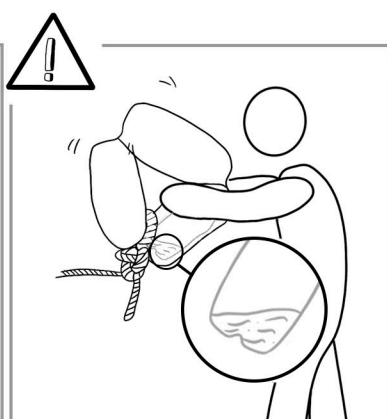

Angalia urefu mzima wa kamba kama kuna uharibifu wowote. Kama uharibifu umepatikana, badilisha urefu kamili wa kamba.

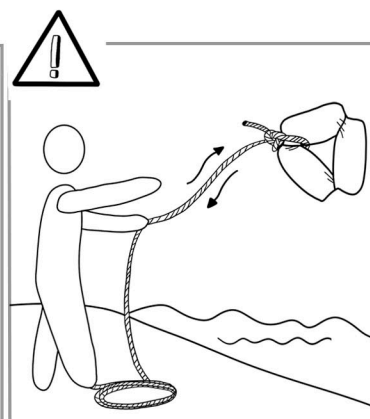

Chunguza kifaa na mshono kama kuna uharibifu na badilisha kama inahitajika.

Hakikisha Kamba imefungwa kwenye pete ya chupa kutumia fundo sahihi.

Finya pete ili kuhakikisha kuwa chupa bado imefungwa na ina maji.

Jaribu pete ya chupa kwa kuitupa ndani ya maji na kuvuta nje tena.

Hifadhi na Ishara

Ni lazima pete ya chupa ihifadhiwe katika mahala pasafi na pakavu mbali na mwanga wa jua. Wakati wa kutumia pete ya chupa inatakiwa iwe mahali pake katika mwili wa maji husika kwa ajili ya matumizi muda wote. Ni lazima ishara iwepo karibu na pete ya chupa kuonyesha jinsi ya kuitumia.

Umiliki

Mwanachama wa jamii anatakiwa apewe umiliki wa pete ya chupa. Mtu huyu anatakiwa kuhakikisha kuwa iko tayari kwa matumizi muda wote kwa kufanya uchunguzi wa mara kwa mara kila siku.

Ufahamu wa jamii

Jamii nzima inatakiwa ifahamu kuhusu pete ya chupa na mahali ilipo. Waanatakiwa waonyeshwe jinsi ya kutumia pete ya chupa kuokoa majeruhi. Jamii, hasa Watoto wanatakiwa wafamishwe kuwa pete ya chupa haitakiwi kutumika kama kitu cha kuchezea.

Sheria

Ni lazima uhakikishe kuwa unatii sharia ya nchi au jamii yako ambazo zinaathiri utumiaji au utengenezaji wa pete ya chupa.

Usalama

Pete ya chupa itumike tu kama kifaa cha uokoaji au msaada wa kuogelea (bila Kamba na kama ni chini ya uangalizi wa mwalimu mhitimu wa kuogelea.) Mabadilisho ya pete ya chupa. Pete ya chupa inatakiwa kubadilishwa kila mwaka. Hii ni kwa sababu mwanga wa jua utaharibu chupa baada ya muda.

Feedback

The RNLI welcomes feedback on this information and the bottle ring design. Please email international@rnli.org.uk with comments and suggestions.

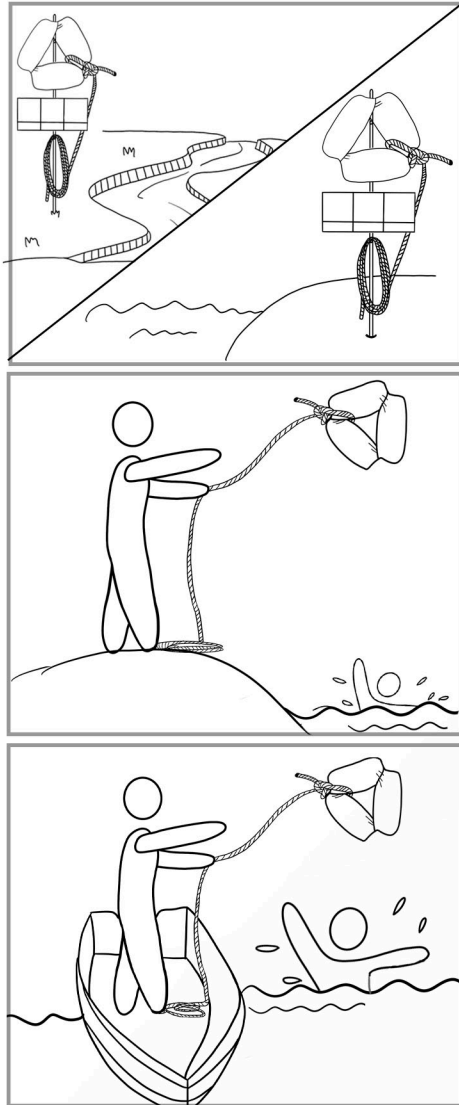

If you have a story involving this item of equipment or if you have used it to help or save someone, please email details and any photographs to international@rnli.org.uk
